

2 July 1975

MEMORANDUM FOR: Mr. George Cary

SUBJECT : Testimony Before the Joint Economic  
Committee, 18 June 1975

1. Attached is the sanitized version of the Director's testimony before Senator Proxmire. Security deletions are marked in red. We also went over the testimony to correct grammatical mistakes; errors in spelling; changes in syntax; and to clear up passages which were obviously muddled.

2. I also am enclosing Committee inserts which we promised to provide. We still owe the Committee a paper translating US military programs into rubles. Senator Proxmire has agreed not to publish the ruble paper because estimates can be made only in the roughest form. We also are looking into the possibility of projecting Soviet military expenses beyond a two year period. I am having the graphics reproduced (with the exception of three items deleted for security reasons) and these should be forthcoming next week.
